## Precise Air Control

*Metal to Metal Seats*

## Quality Construction

*Heavy Wall body*

*Reinforced damper blades*

## Powerful Sealing

*2000+ inch-lb torque Actuator*

## Fully Configured

*End of travel limit switches*

*(2) Auxiliary Limit switches*

*Manual (Locking) Trim Damper*

- ▶ *Sizes from 10" to 44"*
- ▶ *Painted carbon steel body w/ flanged connections*
- ▶ *Two reinforced damper vanes*
- ▶ *1" diameter C-1018 thru shafts*
- ▶ *Manual balancing damper to allow balancing the "to oxidizer" leg of the ducting*
- ▶ *Grease lubricated ball bearings mounted on stand-offs over adjustable packing glands*
- ▶ *99% shut-off @ 5" w.c.*
- ▶ *Process air temps up to 750° F standard*
- ▶ *Carbon steel slave linkage*
- ▶ *Metal to metal blade seats*
- ▶ *Operator mounting bracket with heavy-duty Triac electric direct drive actuator with internal limit switches*
- ▶ *Bearing stand-offs to accept optional 3" insulation and cladding*
- ▶ *Available in both horizontal (thru to oxidizer) and vertical (thru to atmosphere) orientations*
- ▶ *Optional insulation and cladding available upon request*
- ▶ *Round (standard), square or rectangular ducting*
- ▶ *Manual or pneumatic actuation with spring return and fail safe*
